La moda si rinnova continuamente, la palette cromatica cambia, sfumature più o meno accese, tocchi di colore naturali e colori forti appaiono per dare carattere alla nuova mise stagionale.

La voglia di un ritorno al minimalismo con la conferma dell'ormai intramontabile black e white, si alterna alla ricerca di colori più' vivi e brillanti, manifesta la voglia di felicità e gioia dopo l'oscurità dell'ultimo periodo.

Anche il mix match dei tessuti, con righe strette e larghe, damier piccoli e grandi, quadri e overcheck, così come nei colori, ha il suo significato: si sperimenta per trovare nuovi abbinamenti cromatici.

La collezione Primavera Estate 2021 è la prima ad essere stata concepita durante la pandemia da covid-19 quindi ha decisamente un sapore diverso rispetto alle precedenti. Riflette quella costante e incessante voglia di voler continuare a sognare senza tralasciare l'eleganza e la semplicità che da sempre connota la nostra identità.
